

ABOUT CLIANTHA

Cliantha Research, full-service Clinical Research Organization (CRO), provides comprehensive and integrated offerings in Early Phase (BA-BE & Phase I), Late Phase (II-IV), Respiratory, Tobacco Research, Dermatology, Consumer Research, Research Lab, IVRT, Biometrics, Medical Services, Environmental Exposure Chambers (EECs).

Cliantha, by leveraging on the depth of experience provides ethical, value added customer centric services rooted in excellence, thereby enabling clinical development of pharmaceutical, biotech & healthcare companies.

Cliantha strategically acquired Hill Top Research, Inflamm Research and Solvius LLP globally to widen the horizon of clinical research & support services for end-to-end developmental needs all across. The acquired companies hold established brand equity in Dermatology, Respiratory and Data Management segments respectively with additional niche expertise in Consumer Research & Environmental Exposure Chambers (EEC) Studies.

With several advanced clinical sites and bio-analytical laboratories in North America and India, Cliantha now has presence in 4 countries along with a strong team of 1400+ professionals. Some of the key regulators, such as the USFDA, EMA, AGES, ANSM, ANVISA, AMPS, MCC South Africa, Health Canada, DCGI, CAP, NABL, Turkey MOH, Thailand MoPH have successfully inspected Cliantha across the globe.

Cliantha Research is headquartered in Ahmedabad and has expanded its domestic reach with 3 regional offices & has presence in USA (Florida & New Jersey), Canada (Mississauga, Winnipeg & Scarborough) & Europe (Portugal).
